INTRODUCTION

OUR gardens are situated on a paved highway ten miles south of Portland, Oregon, on the Oregon City car line, two blocks east of the East side Pacific Highway (River road) at Hull Avenue station. We have been established since 1915, and have been gradually building up a fine collection of rock plants and iris. Beside the commoner varieties, we have many rare and interesting rock plants, and our collection of tall bearded iris is unusually complete. We have the largest collection of dwarf bearded iris in the west, besides a very large number of Japanese and other beardless iris. Our search for iris species has been so well rewarded that we can list a number of varieties which are but rarely catalogued.

No catalogue, however complete, can adequately picture rock plants and iris as they really are; and we should be very happy to have anyone interested in alpinists and iris visit us during the blooming season. In our trial plots we are experimenting with a number of new alpinists not included in our catalogue, which we feel sure will be of interest to enthusiastic rock gardeners. This includes a collection of New Zealand alpinists, sent us by a correspondent in New Zealand, many of which have never been catalogued.

NON-WARRANTY IS CONDITION OF ALL SALES MADE. On account of there being so many causes for failure over which we have no control, such as poor or improper soil, unfavorable weather, ignorant or careless culture, we can assume no responsibility after stock is delivered.

ORDER EARLY. Early orders are suggested to prevent disappointment in case the variety should be sold out. Please write your name and address plainly.

STOCK. All orders will be filled with good strong plants that will be reasonably sure to bloom the first season.

TERMS. Cash should accompany the order in all cases. No order will be accepted for less than \$1.00. Make checks payable to Carl Starker, Jennings Lodge, Oregon.

POSTAGE. We prepay postage on all orders west of the Rocky Mountains. All others please add 10% to help cover postage and packing.

We do not substitute.

Telephones—Oak Grove 195-M.

ROCK PLANTS AND PERENNIALS

Realizing that most gardeners want plants that require no pampering my list includes only a few that are at all difficult to manage. I am continually adding to my stock from the best European sources, and will each year be able to list more new plants of interest. Due to the heavy demand for them, I have withdrawn a number of items listed last year, in order to increase my stock. Beside the plants here listed, I have limited quantities of many other varieties in my garden. Write me regarding your wants.

If your space permits, by all means use several plants of one kind, rather than one plant each of many kinds. The result will be much more pleasing.

Please order and plant early if possible—early planting is one of the biggest factors of success; beside, stock in some cases is limited.

HARDY PERENNIALS AND ROCK PLANTS

Price of all plants except where noted 25 cents

Acaena Glauca. Dwarf trailing evergreens, foliage of a bluish hue; close spiny heads of flowers. Fine for carpeting.

Acaena Inermis. Similar to the above, but more blue.

Achillea Argentea. Rosettes of silver gray foliage. White flowers.

Adonis Amuerensis. Blooms very early, almost before the leaves appear. Golden calendula-like flowers close to the ground. Rare. 75c.

Aethionema Grandiflorum. Rosy blossoms in racemes. Bushy grower with glaucous foliage. 35c.

Aethionema Pulchellum. Prostrate and beautiful. Soft rose. A real treasure. 35c.

Aethionema Purpurea. Darker than the above. 35c.

Aethionema Schistosum. Compact, erect grower. Large rosy pink flowers. 35c.

Alsine Pinnifolia. A dense carpenter making tufts of foliage dotted over with tiny white flowers.

Alyssum Argenteum. Yellow flowers with silvery leaves. Blooms all summer. Later than *Saxatile*.

Alyssum Saxatile Compactum. Neat bushes, hoary foliage, large golden heads of flowers in early spring.

Androsace Coronopifolia. A dainty alpine with smooth bronzed foliage and airy white blossoms. Rare. 50c.

Androsace Lanuginosa. A trailing plant with silky gray foliage and rose colored flowers. A lovely alpine. 50c.

Androsace Primuloides. Pink lilac flowers with a deeper eye. Rosettes of woolly foliage, forming solid cushions. 75c.

Anemone Hupenensis. A pretty species from central China with pale mauve flowers from August to late fall. 35c.

Anemone Patens. Western form of *pulsatilla*. A beautiful lilac shade. 50c.

Anemone Pulsatilla. The lovely Pasque flower. A silky bud opening to form a deep lavender flower with golden center. 35c.

Anemone Pulsatilla Rubra. Wine red form of the above. 35c.

Anemone St. Brigid. Very early poppy-like flowers of various bright colors.

Aquilegia Flabellata Nana Alba. Flowers pure white. Plant dwarf. Japan.

Aquilegia Nivea Grandiflora. Another good dwarf white columbine.

Aquilegia Long Spurred Hybrids. Wonderful colors.

Arabis Alpina Flore Plena. Double rock cress. Flowers in dense masses. Splendid for early color.

Arabis Alpina Rosea. Soft rose colored flowers.

Arabis Alpina Variegata. Variegated yellow and green foliage. Very showy.

Arenaria Balerica. A real gem for carpeting a moist shady spot. 35c.

Arenaria Montana. A plant that everyone should have. Forms neat green foliage fairly smothered in large white flowers.

Armeria Formosa. Neat tufts of grass-like foliage, round heads of light pink flowers.

Armeria Lauchiana. A dwarf improved form of Martima with carmine flowers.

Armeria Martima. Nine inch stems. Light pink flower heads.

Artemisia Frigida. Forms lovely silvery mounds of foliage. Grows well in dry poor soil.

Aster Alpinus. A charming dwarf spring bloomer. Solitary flowers, clear lavender with golden centers. A very profuse bloomer.

Aster Alpinus Goliath. Beautiful lilac. Larger than the preceding. 30c.

Aster Bessarabicus. Fine heads of lilac flowers. 12-18 inch.

Aster Climax. Large flowered lavender. One of the showiest. Tall.

Aster Cassubicus Grandiflorus. Dwarf dark blue. Fine.

Aster Delavayi. Flowers solitary, large. Delightful shade of lavender blue with conspicuous black disc. One of the most beautiful of recent introductions from China. 50c.

Aster Farreri. Large many-rayed flowers of deep violet blue with eyes of intense vermilion orange borne singly on 12 to 15 inch stems. Late introduction from China. 50c.

Aster Forrestii. A lovely recent introduction from China. 50c.

Aster Mauve Cushion. Forms a cushion-like plant 2-3 feet in diameter and 4-6 inches high literally covered with mauve flowers in October.

Aster Perry's White. Remarkably free flowering. Well branched. Three feet high.

Aster Ptarmicoides. White flowers in flat corymbs. Very neat and dwarf. Long season bloomer.

Aster St. Egwin. Pleasing rosy pink in graceful sprays. 3 feet.

Aster Yunnanensis. A fine new species with large brilliant lilac-blue flowers with clear yellow disks. 35c.

Aubretia. Neat tufts of gray-green foliage smothered with flowers in early spring. New large flowered hybrids.

Lavender to Purple Shades. 25c.

Rose to Crimson Shades. 40c.

Auricula. Handsome primrose-like plants. Foliage covered with whitish powder. Flowers in clusters. Many velvety colors. Prefers half shade. 30c.

Betonica Grandiflora. Rather coarse but effective with light magenta flowers. 15 inch.

Bellium Minutum. A pigmy daisy from Greece. Pale lilac flowers blooming for weeks at a time.

Calandrinia Umbellata. Satiny Lewisia-like flowers of dark crimson. Rich and showy for a dry sunny place. 35c.

Calmintha Alpina. Mat forming plant with aromatic foliage. Spikes of soft lavender flowers all summer.

CAMPANULA

Beside the campanulas listed below, we have a limited stock of other rare varieties. If you are interested in any particular sort, please write to us. We may be able to supply you.

Campanula Carpatica. Compact tufts of rich blue and white flowers, robust and free flowering.

Campanula Fragilis. This beautiful Italian species is rarely seen in cultivation, but is easy and delightful on sunny rocks. It bears a profusion of dainty open starry cups of blue. 50c.

Campanula Garganica. A generally prized rock garden ornament on account of its lovely starry blue flowers and its ease of culture. 35c.

Campanula Glomerata. Produces clustering heads of violet blooms on stems 1 foot tall. Of easiest culture. Blooms in June.

Campanula Glomerata Acaulis. A dwarf form of the above with very large flowers on 3-inch stems. 35c.

Campanula Laurii. Lovely new introduction from the Greek islands. Extremely free flowering. The bells of lovely rosy lavender are borne upright instead of drooping. 30c.

Campanula Persicifolia Alba. One of the finest campanulas with large handsome white flowers in 2-foot spikes.

Campanula Persicifolia Coerulea. Blue. An excellent companion to the white variety.

Campanula Persicifolia Backhousei. Very large flowered English hybrid. Colors mixed. 50c.

Campanula Persicifolia Moerheimii. Extra fine double white flowers of waxy texture.

Campanula Persicifolia Pfitzeri. Extra large flowered double blue. Magnificent.

Campanula Persicifolia Telham Beauty. Giant flowered. Delicate lavender.

Campanula Portenschlagiana. Often sold as *Muralis*. Indispensable for rock gardens large or small. Bears a profusion of starry violet flowers which almost hide the foliage. 30c.

Campanula Pucilla Alba. A miniature gem bearing dainty fairy bells which completely hide the foliage. 3-inch. Blooms in July and August. 35c.

Campanula Pucilla. Another little witch. A blue form of the above. 35c.

Campanula Pyramidalis. Foliage is like *Garganica*. The violet purple blossoms are borne upright in great profusion. Rare and lovely. 75c.

Campanula Raddeana. One of the best Campanulas, bearing glorious violet flowers on 8-inch stems. 50c.

Campanula Rotundifolia. Blue Bells of Scotland. Slender branching plant with dainty blue flowers from May to November. Very free flowering.

Campanula Turbinata. Much like *Carpatica*, but with larger flowers.

Campanula Turbinata Alba. A white form of the above.

Cheiranthus Allioni. Alpine Wallflower. Covered very early with dazzling orange flowers. 8-10 inches high.

Cheiranthus Cheiri Aurea. Wallflower. Fine brilliant yellow. Sweet scented.

Cheiranthus Linifolius. Free flowering lilac. Blooms nearly all summer. Dwarf.

Chrysanthemums. Doubles and singles. Wide variety of colors. Mixed only.

Crucianella Stylosa. Tangled masses of foliage with crowded heads of rose colored flowers.

Cypripedium. We have available a limited quantity of *C. Acaule*, *Pubescens* and *Spectable*. Write for prices.

Delphinium. Chinense. A very pretty species with feathery foliage and intense gentian blue flowers. 12 to 18 inches. June to October. We have a white form also.

Delphinium Belladonna. Silver blue flowers. Very free flowering. 36-60 inches. July to October.

Delphinium Wrexham and Langdon Strain. Wonderful shades of light and dark blue and lavender, both single and double forms. 50c.

Dianthus Alpinus. Very dwarf, with lovely large rose colored flowers. 50c.

Dianthus Arenarius. Makes a compact mass of bluish foliage with fringed white flowers.

Dianthus Arvenensis. Very neat and attractive with pink flowers on three-inch stems. 35c.

Dianthus Caesius. The Cheddar Pink. The stay and standby of every sunny rock garden. Forms masses of handsome blue foliage with numerous soft pink flowers on 8-inch stems.

Dianthus Deltoides. Maiden Pink. Rose colored flowers. June to August. Free flowering. 4-6 inches.

Dianthus Deltoides Brilliant. Similar to the above, but with bright red blossoms.

Dianthus Graniticus. Similar to *Deltoides*, but more compact. Flowers gathered two or three in a head.

Dianthus Grisbachii. A fine cluster headed pink from Bulgaria with bright magenta flowers. One foot. 50c.

Dianthus Lacinatus Alba. Fringed white. Very sweet scented and dainty.

Dianthus Sternbergii. Large fringed flowers of vivid rose on 6-inch stems. Very fragrant. 50c.

Dianthus Sundermanii. A Macedonian species growing 6 inches high with large white flowers. Rare. 50c.

Dianthus Superbus. Flowers pale lilac. Very much fringed. Extremely fragrant. July to September.

Dianthus White Reserve. A new sweet scented fringed pink of rare charm. Blooms all summer. 35c.

Diarema Pulcherima. Australian Wand Flower. Long grass-like foliage with ixia-like flowers of varying shades of pink and red borne in graceful drooping panicles. About six feet. Rare and lovely. 50c.

Dicentra Eximina. A fine bleeding-heart whether in sun or shade. Lovely foliage and deep rose flowers. Blooms over a long period in spring and summer. 35c.

Digitalis Buxbaumi. Yellow foxglove. Flowers marked with brown.

Digitalis Monstrosum. Finest large flowered mixed.

Epilobium Nummularium. A prostrate rambling plant with glossy bronzy leaves, making a fine flat carpet. Flowers inconspicuous.

Erigeron Glabellus. Aster-like flowers blue with yellow centers, borne in clusters.

Erigeron Grandiflorus Elatior. Early flowering lilac. Flowers all summer. Very desirable. 35c.

Erigeron Speciosus. Beautiful shades of blue. 18 inches. June to September.

Erica Carnea Rosea. A charming pink heather in bloom from November to March. One foot. A fine shrub for the rockery. 50c to \$1.00.

Erinus Alpinus Alba. Very attractive tufts of green foliage with tiny white flowers. May to July. 3 inches.

Erinus Alpinus Carmineus. Same as above but with carmine rose flowers.

Erpetion Reniformis. Tiny blue and white violets borne on 2-inch stems. Blooms throughout the summer. Very dainty. Should not be used with coarse plants. 35c.

Eryngium Amethystinum. Greenish-amethyst thistle-like flowers on much branched stems. 35c.

Erysimum Pumillum. Very dwarf alpine species. Large yellow wall-flower-like blossoms.

Erysimum Pulchellum. A new species which forms dense mats with nice light yellow flowers. Fine for a dry rockery.

Eupatorium Ageratoides. Forms a fine mass three feet high with many panicles of fluffy white flowers. A fine fall bloomer.

Eupatorium Purpurea. Similar to the above, but more dwarf with fine blue flowers.

Fragaria Indica. Creeping Strawberry. Rapid grower with yellow blossom and showy red fruits.

Gentiana Acaulis. Gentianella. One of the most beautiful alpine; evergreen foliage and large intense blue flowers. Three inches. \$1.00.

Gentiana Andrewsii. The bottle gentian. Hardy and easy. Flowers are a beautiful blue, and never open. 35c.

Gentiana Calycosa. A striking beauty 8-18 inches high with large open bells. 75c.

Gentiana Cruciata. Deep blue. Perfectly easy and vigorous. August and September. 50c.

Gentiana Septemfida. It is easy of culture. The most reliable kind. Prostrate and a sure bloomer. Large sky blue flowers in heads. July and August. 75c.

Geranium Grandiflorum. Large ultramarine blue. A most unusual plant and much admired. Stock limited. 50c.

Geranium Loweii. A strong growing plant with rose pink flowers. The foliage takes on a beautiful autumn color. 50c.

Geum Borisii. Neat evergreen foliage. Brilliant orange scarlet flowers. 6 inches or less. Stock limited. 50c.

Geum Ciliatum. Pleasing yellow flowers and most attractive feathery seed pods. 50c.

Geum Heldreichii. A dwarf species from Greece. Flowers a deep orange red. A heavy bloomer. 50c.

Geum Lady Stratheden. Large double golden yellow flowers. Very fine.

Geum Montanum. One of the most desirable species. Large golden flowers borne on three-inch stems. 50c.

Geum Mrs. Bradshaw. Double red. Showy. Long season bloomer. Fine for the border or large rockery.

Geum Reptans. Creeping habit with vivid yellow flowers. Very choice. 50c.

Geum Sibericum. Nodding strawberry pink blossoms loosely arranged on 8-inch stems. A most interesting plant and quite different from other Geums. 35c.

Globularia Cordifolia. Metallic blue leaves in winter. Round heads of pretty blue flowers. 30c.

Gypsophila. Paniculata. Small white flowers in great profusion. Useful for bouquets. 24 inches.

Gypsophila. Reptans. Blue gray mats of small leaves with myriads of small white flowers.

Habenaria Fimbriata. A lavender fringed orchid. A 12 to 14-inch spike studded with dainty fringed blossoms of exquisite lavender pink. Very rare. 50c.

Helleborus Niger. Christmas Rose. Blooms throughout early winter. Anemone-like flowers tinted apple blossom pink. Very lovely for a sunny corner in winter. Very rare. \$1.00.

Helleborus Orientalis. Similar to the above, but varying from pink to purple and chocolate brown. Later and taller. \$1.50.

Helianthemum Vulgare. Various shades, white, yellow, orange, pink and red. Doubles and singles. Showy. 25c-50c.

Hepatica Triloba. One of the earliest spring bloomers. Small anemone-like flowers in white, lavender or blue.

Heuchera Sanguinea. Coral bells. Coral red flowers 12 inches high in loose panicles.

Hypericum Coris. The rarest and best of the race. Fine yellow flowers. 60c.

Hypericum Reptans. Prostrate evergreen glaucous foliage. Large golden yellow flowers. 35c.

Hypericum—From White River glacier. A charming carpeter with minute bronze foliage and tiny yellow flowers. 35c.

Linaria Anticaria. Yellow flowers like small snapdragons. Dwarf. Showy.

Leontopodium Alpinum. Edelweiss. A well-known Alpine. Small yellow flowers surrounded by star-like heads of leaves clothed with a dense white woolly substance. 4-6 inches. 35c.

Linum Lewisii. A lower growing form than Perenne. Specially graceful.

Linum Perenne. Intense sky-blue flowers. Good for poor soil and hot sun. Long blooming season. We also have a white form.

Lychnis Alpina. Alba. Neat little tuft with heads of white stars on 2-3-inch stems. Easy culture.

Lychnis Lagascae. Beautiful dwarf alpine with bright rose flowers borne all summer. 35c.

Lychnis Viscaria Splendens. Very double brilliant carmine flowers on 8-inch stems. April to July. 6-8 inches. 35c.

Lysimachia Nummularia. Pretty flat growing evergreen trailer with yellow flowers.

Mazus Rugosus. A beautiful creeper. Forms a solid carpet covered with large snapdragon-like flowers of clear lavender spotted purple. A fine ground cover for small bulbs.

Mentha Requiemi. Dense green carpet of foliage with a delightful peppermint fragrance and tiny lavender flowers. 35c.

Mertensia Virginica. Bluebell. Arching sprays of azure blue bells on 12-inch stems; Middle Western native. Very handsome.

Nepeta Mussini. A fine rock mint for sunny locations. Lovely clouds of soft lavender blue flowers all summer. 12 inches high.

Oenothera Fruticosa. Evening Primrose. Brilliant yellow. A neat growing species with a long season of bloom. 8-12 inches.

Pellaea Atropurpurea. A small rock-loving fern with attractive gray green fronds and black stems. Stands drought and sun well. Native of Texas. Hardy. 50c.

Papaver Alpinum. A charming little gem. Wants plenty of sun and grit. Various shades.

Papaver Orientalis. Various shades of pink and red.

Pentstemon. Glaber. Fine evergreen foliage, brilliant tubular, bright blue flowers. Early and hardy.

Phlox Adsurgens. Fine green foliage and lovely pink flowers. Creeping habit. A lovely native of Southern Oregon. 40c.

Phlox Amoena. One of the best for carpeting. 4 inches high, a sheet of bright pink in early spring.

Phlox Divaricata Canadensis. Neat tufted habit, slender stems with heads of lovely fragrant lavender blue flowers.

Phlox Sublata. Mossy Phlox. A charming creeper, covered in very early spring with masses of flowers. Two separate colors, white or rose.

Phlox Sublata Vivid. A brilliant rose pink, blooming later than the above. Extra choice. 35c.

Plumbago Larpentae. Dwarf spreading habit, bronze foliage, deep blue flowers in fall. 6-8 inches.

Polemonium. (From Alaska.) Makes nice mounds of ferny foliage with attractive flowers. 35c.

Polemonium Coeruleum Prima Donna. Dwarf, delicate light blue. New. 35c.

Polemonium Humile. Low slender plant, flowers bell shape, blue, with the odor of grapes. 35c.

Polemonium Reptans. One foot or less. Literally covered with delicate, lovely blue flowers in May. Good for the border or the rockery.

Polemonium Richardsonii. Jacobs' Ladder. About 18 inches high. Various shades of blue.

Polemonium. (A pink form from the Cascade Mountains.) Grows about a foot high with lovely soft pink bells. Quite unusual and very much admired. 35c.

Potentilla Cinerea. A little gem. Two inches high with lovely yellow flowers. 35c.

Primula Cashmeriana. Earliest of all, with globular flower heads of rosy lilac to white. 6-8-inch stems. 40c.

Primula Japonica. Hybrids. New hybrids of rose, orange and carmine flowers in whorls. Likes half shade. 10 to 14 inches. 50c.

Primula Veris. Hardy primrose. Splendid border plant. Our strain includes various shades of blue, buff, orange, red, pink and yellow. We also have cowslips and hose-in-hose types. 15-50c.

Primula Veris. Double Lavender. Exquisite double flowers borne in great profusion.

Primula Veris. Double White. Same as the above, only white.

Pyrethrum Grandiflorum. Painted Daisy. Double and single flowers, white to dark rose, borne on 2-foot stems.

Sagina. Densely tufted plant, covering the ground like sheet moss, white flowers studded all over the plant.

Saponaria Ocymoides. A desirable and lovely plant, making a carpet of pleasing foliage, literally smothered with pink flowers in spring.

Saxifraga Aizoon. A valuable alpine, much tufted, forming dense rosettes flowers white. 6-10 inches.

Saxifraga Caespitosa. Pure white flowers from dense green tufts of foliage.

Saxifraga Decipiens. Guilford's Hybrids. Lovely shades of rose and pink flowers. Forms a soft ever-green carpet.

Saxifraga Macnabiana. Foliage in rosettes, silver gray to bronze in winter, flowers white with pink spots. 10 inches.

Saxifraga Megasea Cordifolia. Handsome broad-leaved foliage, which alone would make the plant invaluable. Rose pink flowers very early, in clusters.

Saxifraga Peltata. A noble plant, popular for bold groups. It loves moisture. Throws up immense leaves

on stems 3 feet high. The flowers which appear in wide heads are a lovely vivid pink with deeper stamens. 50c.

Saxifraga Pyramidalis. Very robust, 2 feet when in flower. Rosettes large and glaucous, white flowers in large panicles. A fine showy plant.

Saxifraga Umbrosa. London Pride. Leaves form dense rosettes 6 inches across. Flowers white, speckled carmine. Wants some shade.

Sedum Acre. Stems creeping, branched, flower stems 2-3 inches high. Flowers yellow. Thrives in poor soil.

Sedum Album. Habit same as above. Flowers white. 3-4 inches. June to August.

Sedum Arboreum. A bushy sort, 6-8 inches high with light pink flowers.

Sedum Dasyphyllum. Glaucous bead-like foliage 2 inches high with pinkish blossoms in loose sprays. Rare and very attractive. 25c.

Sedum Hispanicum. Bluish gray mats of foliage and creamy blossoms. 2-3 inches.

Sedum Kamtschaticum. Branches 6-10 inches long. Flower stems 4-6 inches high bearing numerous bright orange yellow flowers. A very fine species. June to August.

Sedum Kamtschaticum Variegatum. Same as the above, but with the foliage pleasingly variegated with white. 35c.

Sedum Middendorffianum. Attractive all the year, narrow reddish leaves on semi-prostrate shoots. Yellow flowers in June. 6 inches. 35c.

Sedum Oregonum. Has erect stems of 3-4 inches, beset with narrow foliage of brilliant green, with heads of yellowish flowers.

Sedum Purpurascens. Flowers rose colored, foliage purplish.

Sedum Reflexum. A rather loosely growing, quick spreading sedum with yellow flowers.

Sedum Sieboldii. A most attractive plant 4-6 inches high with bluish-green foliage and pink flowers. Not a spreader. 35c.

Sedum Sexangulare. Very much like *S. Acre*, but larger.

Sedum Spathulatum. Glaucous foliage, large cocomb-like heads of yellow flowers.

Sedum Spectabile. One of the prettiest erect growing sedums. Broad light green foliage, with immense flat heads of rose colored flowers. 35c.

Sedum Spurium. It makes fine prostrate masses and bears in late summer clusters of pinky-white stars for a long time.

Sedum Spurium Coccineum. Same as the above, but with rosy flowers. The foliage assumes a reddish tone in autumn.

Sedum Stahlianii. A Mexican form growing 4 inches high with yellow flowers. The foliage is touched with red in mid-summer.

Sempervivum Arachnoideum. Cobweb Hen and Chickens. A lovely little jewel with the tips of the leaves connected with long, soft white hairs. Ruby rose blossoms on 3-4-inch stems. The hotter the situation the happier is the plant.

Sempervivum Braunii. A handsome species with open rosettes of reddish tipped leaves and yellow flowers. 4 inches high. 35c.

Sempervivum Glaucum. Rose colored flowers, foliage gray-green.

Sempervivum Montanum. Tiny rosettes of leaves. Flowers mauve red on 3-6-inch stems.

Sempervivum Tectorum. Old Hen and Chickens. Rosettes 3-4 inches in diameter. Leaves tipped with red-brown. Flowers rose colored.

Sempervivum Triste. Leaves brownish, flowers white.

Shortia Glaucifolia. Forms tufts of glossy leathery leaves among which blossom the pale pink five-lobed bells on 4-inch stems in spring and early summer. 50c.

Silene Acaulis. Cushion Pink. Moss-like tufted plant 2 inches high with reddish flowers. 40c.

Silene Alpestris. Tufts of oblong narrow bright green leaves, bearing a profusion of white flowers on delicate branching 6-inch stems. Very rich and dainty in effect. 40c.

Silene Saxifraga. Low green mounds of foliage with small white flowers on wiry stems a few inches tall.

Silene Schafta. The most satisfactory of all silenes. Trailing 3-6 inches. Bears a profusion of carmine blossoms late in the season. Very easy to grow.

Soldanella Alpina. Lovely fringed bells of orchid pink on 3-4-inch stems. A rare gem for the rock garden. Blooms very early. Very choice and rare. \$1.00.

Solidago Shortii. A dwarf Golden-rod, about 14 inches high with large yellow panicles.

Spirea Filipendula Ulmaria Plena. Fern-like foliage in a neat rosette, bearing tall sprays of creamy-white flowers, opening from attractive coral-colored buds.

Stachys Lanata. Lamb's Ears. A nice little carpeter with velvety foliage of pale green.

Stellaria Graminea Aurea. A prostrate mat of yellow-green foliage with tiny white flowers.

Synthirus Sweetseri. Produces tufts of leathery green leaves, from which spring up a profusion of lovely fluffy spikes of deep, clear violet blue flowers. Often blooms most of the winter. 4 inches. Rare. 50c.

Synthirus Rotundifolia. Similar to the above, but more dwarf with soft lavender flowers. Plant in shade.

Thalictrum Adiantifolium. Leaves like a fine maidenhair fern. Flowers inconspicuous. 35c.

Thalictrum Aquilegifolium. Feathery lavender flowers of great beauty in June and July. Always attracts attention. 30c.

Thymus Citriodorus. Argenteis. Silver leaved thyme. 8 inches high. Deliciously fragrant foliage with inconspicuous flowers. Makes nice clumps.

Thymus Lanuginosis. Woolly Thyme. An unusually good creeper with velvety, fragrant foliage and pink flowers. Fine for covering large rocks.

Thymus Serpyllum. Thyme. Forms dense mats of aromatic foliage and clouds of pinkish lavender flowers.

Thymus Serpyllum Albus. Same as above, but with white flowers.

Thymus Serpyllum Coccineum. Same as above, but with crimson purple flowers.

Tradescantia Virginica. Spider Lily. Good for moist places. Brilliant blue flowers 12-17 inches high. May to September.

Trollius Europeaus. Globe Flower. A beautiful free-flowering plant for half shade. Globular yellow flowers, resembling large buttercups. Very showy and lovely. 50c.

Trollius Wargravii. Lovely dwarf form, with brilliant single yellow flowers. 6 inches.

Veronica Cataractae. A gem for the rockery. White flowers in profusion.

Veronica Corymbosa Stricta. A fine alpine. Dense tufts of azure blue flowers.

Veronica Ericoides. Beautiful rose-colored flowers. 35c.

Veronica Gentianoides. Stately and beautiful plant with leathery, gentian-like leaves and attractive pale blue flowers.

Veronica Incana. Silver gray foliage with spikes of clear royal blue. Fine for foliage contrast.

Veronica Prostrata. One of the best and easiest growers, forming large mats covered with a profusion of celestial blue flowers.

Veronica Repens. A fine trailing species which hides its foliage under a carpet of pale blue flowers. Fine for paved walks. Good bulb cover.

Veronica Spicata. Flowers violet blue in long spikes.

Veronica Spicata Alba. Same as the above with white flowers.

Viola Florariensis. The blue and white flowers are borne in great profusion throughout the summer.

Viola G. Wermig. Beautiful deep purple pansy violet forming broad mats. It blooms profusely.

Viola Jersey Gem. Flowers fine purple. An extremely heavy all-season bloomer. Very popular.

Viola Native Arkansas. A large-flowered white with lavender pencilings. A very sturdy grower.

Viola Odorata. The true English fragrant violet.

Viola Pedata. Bird's Foot Violet. Large pale violet flowers. 35c.

Viola Pedata Bicolor. Exquisite form of the above with two upper petals royal purple. 40c.

Viola Riviniana. An excellent violet for the rockery standing sun and drought. Flowers light blue. All summer. Seeds itself freely.

Zauschneria Californica. A low-growing perennial with red fuschia-like flowers. Remarkably drought resistant. Trailing foliage a pleasing gray. July to October. 35c.

MISCELLANEOUS BULBS AND ROOTS.

These are only available for fall planting. In addition to the following list, we grow a limited number of other interesting native plants from the east, middle west and south. We also have a fine collection of western wild flowers and bulbs. If you are interested in these wildlings please write to us.

Arisaema Triphyllum. Jack-in-the-pulpit. Curious black and green calla-like flowers from the Middle West. Plant in the shade. 25c.

Black Calla of the Nile. Flowers are like huge calla lilies but of a dark chocolate color. Individual flowers are sometimes a foot and a half long. Tubers 35c to \$1.00 according to size.

Chionodoxa. Luciliae. Glory of the Snow. Very desirable. Blooms with the crocuses, producing dwarf flower spikes bearing several sky blue stars with white hearts, creating a lovely effect. 50c per doz.

Chionodoxa Sardensis. This is earlier than the above, and is a rich blue self color. 50c per doz.

Crocus. Biflorus. The Scotch Crocus. White with lilac stripes. \$1.00 per doz.

Crocus Imperati. Fine shade of mauve. Exterior of the three outside segments a rich fawn. \$1.00 per doz.

Crocus Sieberi. Cloth of Silver. A Gem. Lavender flowers with bright orange stigmata. Very early. 70c per doz.

Crocus Susianus. Cloth of Gold. Most attractive rich deep yellow with dark rich brown flames on exterior of segments. Very early. 70c per doz.

Crocus Tommasinianus. Flowers vary from pale mauve to rich purple. 60c per doz.

Crocus Versicolor. Strong grower. Flowers are white, striped purple. 60c per doz.

Crocus Zonatus. Fall blooming. Rose lilac with a yellow center and orange zone. Ethereal and lovely. 75c per doz.

Eranthus Hymalis. Winter Aconite. One of the first spring bloomers. Bright yellow flowers resembling buttercups, rising from an encircling collar of fringy green. 50c per doz.

Muscari Botryoides. Coeruleum. Grape Hyacinth. California Giant. Much larger than ordinary Grape Hyacinths. Fine deep blue. Fine for the rock garden or naturalizing. 75c per doz.

Muscari Plumosus. Feather Hyacinths. Lovely and curious flowers 9 inches high with feathery plume-like spikes of lovely lilac flowers. Fine for the rock garden. \$1.50 per doz.

Scilla Campanulata. Wood Hyacinth. Lovely spring flowering bulbs with small hyacinth-like flowers in shades of blue and white. Mixed. 60c per doz.

Scilla Campanulata Rosea. This is a soft lilac-rose form of the above. 75c per doz.

Scilla Siberica. Blue. Very early. Comes with the crocus. Produces drooping bell-like flowers on stems 3-4 inches high. Color bright blue. Lovely for the rock garden. Very fine when planted next to Anemone Fulgens. 75c per doz.

Tigridia Pavonia. Shell Flower. This curious and beautiful plant has three petaled cup-shaped blossoms, shaded apricot salmon with maroon spots in the center of the flower. The leaves are sword shape, 1½ to 2½ feet tall. The flowers are produced in succession all through the summer. \$1.50 per doz.

Tulipa Clusiana. Long pointed petals, the outer three are bright cherry-red, inner petals creamy white with violet base. A small flower, but very airy, and most attractive for the rockery. Height 8 inches. Flowers in late April. 75c per 10.

Tulipa Eichleri. A grand tulip from Turkestan; immense crimson-scarlet flowers with glistening black center marked with gold. Height 11 inches. \$1.65 per 10.

Tulipa Greigi. Gorgeous orange scarlet goblet shaped flower with prominent stamens, pointed, slightly reflexing petals and broad thick leaves mottled with purple. Height 9 inches. Blooms in late April and May. \$2.25 per 10.

Tulipa Marjolletie. Soft primrose, shaded carmine-rose at base, a very attractive color. A tulip from Savoy, flowering about the second week in May. Height 14 inches. \$1.30 per 10.

Zephyranthus Candida. Fairy Lily. A beautiful, pure white flower, somewhat resembling a small amaryllis, but borne in clusters. Very effective for border planting or the rockery. \$1.00 per doz.

LILIES FOR FALL PLANTING.

Aratum. Gold Banded Lily of Japan. Immense white flowers thickly spotted with brown, each petal having a golden yellow band through the center. 25c-35c.

Candidum. Madonna Lily. Waxy White flowers in large clusters. June flowering. 25c.

Elegans. Upright flowers in shades of orange and red. 35c.

Giganteum. Easter Lily. Lovely large white lily bells, several on a stem. 35c.

Grayi. 2-4 feet. A beautiful lily with deep reddish bell shaped flowers. Small but lovely. 35c.

Hansoni. Heavy waxy flowers borne in clusters. The color is a warm orange faintly spotted brown. The blossoms which have reflexed petals are 2 inches across. An early bloomer that is hardy and desirable. 25c.

Pardalinum. Leopard Lily. The reflexed petals are orange tipped scarlet spotted with rich brown. Robust and free flowering. 35c.

Regale. Regal Lily. A strong growing lily of easy culture. Ivory white flowers tinted pink and brown on reverse side. 20-35c according to size.

Speciosum Rubrum. Flowers white with a pink band in the center of each petal, and numerous crimson spots toward the center of the flower. 30c.

Tenuifolium. The lovely Coral Lily of Siberia. A great beauty for the rock garden. The brightest of all lilies. 20 inches high on slender stems with beautifully shaded coral red flowers. An early bloomer. 25c.

Tigrinum Floreplena. Double Tiger Lily. Bearing immense clusters of large double flowers on strong stems. Color bright orange red spotted with black. 25c.

AQUATICS.

Prices 25c except as noted

Parrot's Feather. A dainty feathery leaved foliage plant which floats on the water.

Water Hawthorn. Oblong green leaves and sweet scented flowers, white with purple dots. Very free blooming. 50c.

Water Poppy. Heart-shaped bronzy leaves and yellow blossoms much like California Poppies. 50c.

Pickerel Weed. For the edge of the pool. Big sturdy leaves rising from the water. Flowers a lovely blue. 50c.

Water Hyacinth. Round bulb-like leaves inflated with air, flowers a soft blue. Goldfish spawn on the roots of this plant. Not hardy.

HARDY WATER LILIES.

Marliacea Chromatella. The best hardy yellow water lily. Charming yellow flowers with bright yellow stamens. The leaves are beautifully mottled with bronze red. \$1.50.

Nymphaea Odorata. White, with yellow stamens. Fragrant. Free flowering; rapid growing. \$1.00.

Nymphaea Rosea. Soft pink. Sweet scented. \$1.50.

Gloriosa. A magnificent variety with fragrant flowers of a deep carmine rose color becoming deep red with age. The plant is very free flowering, blooming continuously throughout the season. The lovely blossoms and the plant's small leaf spread, make it very desirable for tub or pool planting. \$5.00.

Paul Hariot. A magnificent light yellow shading to orange pink, and then to copper red. Flowers of great beauty and substance. Foliage spotted reddish brown. \$3.50.

Rose Arey. Very lovely deep rose pink. Fragrant and free blooming. One of the very best. \$3.00.

GOLDFISH.

We grow a fine lot of fish of the following varieties: Common goldfish, comets, Japanese and American fantailed, shubunkins and telescopes. Prices 25c to \$1.00 according to variety and size.

IRIS.

The iris is one of the most satisfactory plants in cultivation, thriving in almost any soil, and under almost any conditions. It is tall, 4-5 feet; it is dwarf 3-12 inches. The range of colors is wide, every tone and shade is represented except the shocking red of the salvia. The foliage is ornamental, the blooming season long. What more could any garden lover wish?

We are glad to welcome visitors at any time, even in winter, when the lovely *Stylosa* is in bloom. The dwarf bearded iris begin blooming early in April, and from then until July, our gardens are a veritable riot of color. We recommend a visit to our gardens during the blooming season, as we feel that a better selection can be made, if the plants are seen in bloom in the field.

All iris lovers are urged to join the American Iris Society. The annual dues are \$3.00, payable to J. B. Wallace, Jr., 129 Church St., New Haven, Conn.

SPECIES OF BEARDLESS IRIS.

This list contains some of the most desirable species, varieties and hybrids.

Acoroides. The shape of the flower and the soft light yellow color are very pleasing. \$1.00.

Bracteata. This species is found native only in Oregon. The flowers are deep yellow, borne two on a 6-8-inch stem. 50c.

Bucharica. Bokhara. A Juno iris. A vigorous and floriferous plant, sometimes bearing as many as seven bright yellow and white blossoms in the axils of the leaves. \$1.00.

Chrysographes. Southwestern China. In habit resembles the Siberian iris. Blossoms are a rich deep violet, sometimes almost black, veined with gold. \$1.00.

Chrysofor. Hybrid *Chrysographes* and *Forrestii*. Very attractive with purplish blue flowers. \$2.00.

Chrysophylla. Oregon. Very dwarf. Color varies from white to deep yellow. A lovely iris, free blooming and a good seeder. 35c.

Cristata. Southeastern United States. The crested iris. A lovely little species, which stars the ground with tiny lavender wide open flowers, with darker markings on the falls. Fine for the rockery. 35c.

Delavayi. China. Grows 3-4 feet high. Variations of blue and red-purple. Must have moisture during the growing season. Produces a fine effect. \$1.00.

Dichotoma. North China. The Vesper iris. Flowers in August, and continues in bloom for three to four weeks, although individual flowers last but a day. The color of the blossoms varies from white to purple. 75c.

Dorothea K. Williamson. Hybrid of *Fulva* and *Foliosa*. Deep velvety purple flowers of unusual beauty and substance. A fine exhibition flower. 50c.

Douglasiana. Southern Oregon. Forms dense masses of foliage with many branching stems bearing several heads of two or three flowers each. The color of the flowers varies from deepest violet purple through purple and mauve to lavender and even white. 35c.

English Iris. (*Xiphoides*.) Lovely wide-petaled flowers, similar to Japanese iris, foliage grass-like. A very deep blue. \$1.50 doz.

Ensata. Asia. The foliage remains green until late in the fall. The flowers are shades of slaty blue. 50c.

Foetidissima. Central and southern Europe. The seed pods remain on the plant in winter, bursting open and displaying rows of orange red berries. The flowers are inconspicuous, the foliage evergreen. 50c.

Forrestii. An alpine iris from China. Has grassy foliage and lovely, clear yellow blossoms borne on 15-18-inch stems. \$1.00.

Foliosa. Southern United States. A low-growing iris with large deep velvety blue flowers and abundant foliage. 50c.

Fulva. Southern United States. One of the most distinct of all irises. The color of the flowers is unique and striking. Both standards and falls are a bright terra-cotta. Good for cutting. 50c.

Fulvala. *Foliosa* and *Fulva*. Very similar to D. K. Williamson, but takes on more of a copper tint. It is extremely rugged and hardy. Deserves to be more generally grown. 75c.

Graminea. Southern and Central Europe. Violet blue flowers. Very fragrant. Good for cutting. 50c.

Gracilipes. A rare and lovely little gem from Japan. The color is light pinkish mauve and the small crested flowers are not more than one and one-half inches in diameter. The crest is orange. Very delicate and dainty. \$1.50.

Guldenstadtiana. Persia. A very hardy plant with flowers varying in color from purple to yellow on stems 12 to 18 inches. 75c.

Hyacinthiana. A new introduction from Kansu, China, with attractive flowers of soft blue and sulphur yellow, with brown veins. 75c.

Japonica. Central China and Japan. A very lovely iris bearing many dainty, frilled orchid-like blossoms of soft lavender with orange crests on much branched flower stalks. Plant near trees or shrubs to give protection from late frosts and bright sun. 50c.

Longipetala. California. Robust and floriferous. Several large flowers, veined with violet on white ground, are borne on each stem. 35c.

Missouriensis. Rocky Mountains. Slender foliage and attractive flowers with dark blue veining on a white ground. 50c.

Persica. A Juno iris from Persia. A strikingly beautiful little species with white flowers tinged with pale greenish blue or sea green. 75c.

Prismatica. Eastern United States. Lilac purple blossoms with a yellow throat; darker veins. 50c.

Ochroleuca. Western Asia Minor. Tall and showy with white blossoms marked with brilliant yellow on the falls. Good foliage. 50c.

Pseudacorus. Europe. Deep yellow flowers with brown veins. Wet sunny position. 35c.

Reticulata. Caucasus region. A rare and beautiful bulbous iris which has deep violet flowers with a golden streak on the center of the falls. Good for rock gardens. Blooms February and March. 75c.

Sambucina. Central Europe. Tall and handsome, with claret colored flower. Late May. Very fragrant. 75c.

Spanish. (*Xiphium*.) Narrow petaled flowers in a wide range of colors. Mixed shades of white, yellow, bronze, lavender and blue. \$1.00 per doz.

Stylosa. Algeria. Flowers deep, reddish purple. Blooms November to April. Should have a place in every garden. 35c.

Stylosa Alba. Same as above, but ivory white with a conspicuous yellow band on the blade of the falls. 35c.

Tectorum. The Japanese roof iris. Violet blue frilled petals. Very large crest. A most interesting type. 50c.

Tenax. Washington and Oregon. Remarkably graceful and pleasing iris. Flowers borne on 12-15-inch stems vary from deep rich red-purple through mauve and lavender to palest pearl gray. 35c.

Tenuis. Found only in fir forests near the Clackamas river in Oregon. The flowers, on stems 6-10 inches high are white with a few purple veins and a patch of yellow in the center of the falls. Very rare. 50c.

Verna. Kentucky and Virginia. Very choice; should be widely grown. Bright lilac-blue flowers except for the central orange band on the falls. Needs shade. 50c.

Versicolor. Northern United States. Flowers vary in color from blue to red-purple. Needs moisture. 35c.

Wilsonii. Western China. Seedlings yellow to purple. 75c.

JAPANESE IRIS.

These lovely iris are as yet but too little known. They bloom after the tall bearded iris, and continue for some weeks. They do best if planted in sunlight and well watered previous to blooming. Best results are obtained when they are fertilized with sheep manure. Beside the named varieties listed below we also have a number of lovely unnamed varieties including a group of unusually fine seedlings which were raised from seed collected in Yokahama. We would be pleased to have you visit our gardens during the blooming season, as Japanese iris must be seen in bloom to be appreciated. The number of petals in the blossoms is designated by the figure in parenthesis.

Albatross. (6). Beautiful pure white, best of all whites. 50c.

Aspasia. (3). Amethyst with delicate blue lines radiating from the central yellow bar. Center darker. \$1.00.

Ayasi. (3). Claret; penciled white surrounding the gold bar, stamens white tipped with lavender. 50c.

Avigata. (3). Dark plum and gray with purple veins. 50c.

Azure. (6). Immense flower exquisitely waved, mauve blue, darker halo surrounding yellow blotch at base of petals. 50c.

Catherine Perry. (6). Blue overlaid rosy red, high tufts in center, almost a triple flower. 50c.

Clarice Childs. (3). Petunia violet, conspicuous yellow center surrounded with blue. Large. 75c.

Cloud Dress. (6). Gray ground with prominent purple lines radiating from the gold bar. 50c.

Choisei-Den. (6). Ruffled claret and white. 50c.

Columbia. (6). Blue with pure white veins. A striking variety. 50c.

Date-Dogu. (3). Rich claret red, orange blotches surrounded by blue halo. 50c.

Dominator. (3). Rich indigo blue with narrow white stripes and light center. One of the finest. 50c.

Doris Childs. (6). Pearl white deeply veined rosy plum, center petals deep plum edged white. 50c.

Eleanor Perry. (6). Claret red flamed white and blue. 50c.

- Fascination.** (6). Blue lightly veined white with a pink tinge. 50c.
- Gekko-No-Nami.** (6). White with prominent yellow bar. Petals drooping. 50c.
- Goko.** (3). Mottled blue. Very wide petals. 50c.
- Gold Bound.** (6). White. 50c.
- Idzumi-Gawa.** (6). Gray, radiating dark blue veins. 50c.
- Kombarin.** (6). Large early white. 50c.
- Komchi-Guma.** (6). Very double deep violet purple. 50c.
- Kuro Kumo.** (6). Deep purple overlaid with blue. Purple bar. 50c.
- Kyodosan.** (6). Very lovely orchid lavender pencilled white. One of the showiest. 50c.
- La Favorite.** (6). Large and fine white freely veined blue with a rich purple center. 50c.
- Lavender Giant.** (3). Extremely fine large lavender blue. Free bloomer. \$1.00.
- Marjorie Perry.** (6). Delicate light mauve. Extra fine. \$1.00.
- Minerva.** (3). Pink tinted rose. 50c.
- Morning Mists.** (Usa-Ga-Umi.) (3). Pure white with faint mist of pale blue. \$1.00.
- Mount Hood.** (6). Light blue shaded darker, bright orange center. 50c.
- Olympia.** (3). Large white flowers veined blue, center petals delicate mauve and blue. 50c.
- Patrocle.** (3). Superb dark reddish violet. 50c.
- Purple and Gold.** (6). Early and free blooming. 50c.
- Pyramid.** (6). Violet purple veined white in the center of each petal. 50c.
- Red Riding Hood.** (3). A fine amaranth veined and suffused with white. 50c.
- Reine Des Balgares.** Deep blue shading with age to light blue, with white veins. A fine free flowering plant. 50c.
- Sano Natashi.** (6). White. 50c.
- Sofu-No-Koi.** (6). Mottled blue and gray. 50c.
- Shadow.** (3). Reddish purple self. Large and fine. 50c.
- Shiga.** (6). Reddish blue, orange bar surrounded by white with radiating white lines. A large and handsome flower. 75c.
- Tai-Hier-Ka.** (6). A fine red. 50c.
- Tora-Odori.** (3). Gray, overlaid lavender blue, very large and fine. \$1.00.
- T. S. Ware.** (6). Reddish violet flowers veined white. 50c.
- Uchiu.** (6). Coerulean blue veined white. Gold center. Exquisite. 50c.
- Wase Banri.** (3). White with lavender standards. 50c.
- Yedo-Jiman.** Thunder Bolt. (3). Dark royal blue with white halo. 50c.
- Zama-No-Mori.** (3). White shaded azure blue, large and beautiful. \$1.00.

IRIS SIBERICA.

- Blue Star.** A fine contrast in light and dark blue, new. \$1.50.
- Distinction.** 4 feet. Well merits its name, a fine blue with white veining. 50c.
- Dragon Fly.** 54 inches. Pale blue standards flushed violet and rich sky blue falls. The flowers are of large size and it is one of the best. \$2.
- Emperor.** 4 feet. A fine deep blue. 50c

Kingfisher. 54 inches. A seedling of Perry's blue, but larger and lighter color. One of the finest. \$2.00.

Lady North Cliffe. 38 inches. Rich violet shade conspicuously veined white. 50c.

Miss Dodo. 46 inches. A fine, tall azure blue. 50c.

Nora Dustin. The standards are violet and the falls dark china blue. 75c.

Perry's Blue. The most popular blue Siberica. 50c.

Skylark. One of the finest light colored Siberian Iris. Large flower of exquisite form. \$1.00.

Sunnybrook. 28 inches. An exquisite shade of Alice blue. Effective for planting in front of the taller varieties. 50c.

Snow Queen. 30 inches. Pure white with a gold blotch. 25c.

Superba. 30 inches. Dark purple blue. 25c.

True Blue. Azure blue of splendid texture. 25c.

Turquoise Cup. The newest thing in Siberians. A glorious and lovely thing in a soft clear blue. \$3.50.

DWARF IRIS.

Pumila, Chameiris and Hybrids.

I specialize in this class of iris and offer a very fine and complete collection. The nomenclature is greatly confused and many varieties are offered under three or four different names by dealers. In this list you will find no duplicates.

In the descriptions "S" denotes the standards or upright petals; "F" the falls or drooping petals.

Alba. Popular early white. Very fragrant. 6 inches. 25c.

Albatre. 7½-inch; a near white, veined pale lilac, beards white. 35c.

Alpin. 5-inch. S., Lobelia blue; F., reddish purple. 35c.

Armee D'Orient. S., yellow. F., lightly washed violet. 35c.

Attroviolacea. 4-inch. Purple with a blue beard. Sweet scented. The first to flower. 35c.

Azurea. 6-inch. Very early; sky blue. 75c.

Barbara. 10-inch. Cream, purple and olive. 35c.

Balceng Bluebeard. 10-inch. Cream, green and blue. 25c.

Balceng Curiosity. 10-inch. Yellow, purple and olive. 25c.

Balkana. 8-inch. Reddish purple. 50c.

Biflora. 6-inch. Purple violet. 35c.

Black Midget. 10 inches, buds soot black, deep purple blooms. Very attractive. \$2.00.

Bluestone. 6-inch. S., violet, F., purple. 35c.

Boquet. 6 inches. White and pale red. 35c.

Brautjunfer. 6 inches. S., lilac white; F., yellow at base, purple at tips. 35c.

Bridesmaid. 4 inches. White and cream with bronze markings. 35c.

Burgos. 6 inches. Violet lilac, a reddish tone. 35c.

Butterfly. 8 inches. Cream and olive. Very sweet scented. 25c.

Buzzer. 9 inches. S., light lavender blue; F., same color, overcast rusty, gives the falls a pink tone. 75c.

Canari. 9 inches. Straw color self. 35c.

Candida. 6 inches. A white self. 50c.

Chameiris Aurea Maculata. 6 inches. Yellow and maroon. 35c.

Citrea. 5 inches. Lemon yellow. Extra early. 25c.

Coerulea. 6 inches. A delicate soft blue. 25c.

Comandant Driant. 6 inches. S., white tinted violet; F., violet. 35c.

Contesse Hautville. 6 inches. S., violet purple; F., garnet. Extra good. 35c.

Cyanea. 6 inches. A medium blue self. Good. 25c.

Danny Boy. 6 inches. S., red purple; F., darker, rich red beard. \$1.00.

Ditton's Purple. 5 inches. This is one of my best; dark plum purple self. 35c.

Dixmude. 6 inches. Dark blue and reddish violet. 35c.

Dr. Mann. Fine deep blue. 35c.

Dr. Potter. Deep purple blue. 35c.

Endymion. 9 inches. Very beautiful dark ruby red self. 75c.

Excelsa. 4 inches. A cheerful little purple flower. 25c.

Graminea. 8 inches. A brilliant violet garnet. Very large flowers. Bloom for a long period. Very striking. \$1.25.

Harbor Lights. 8 inches. Best light sulphur yellow. 75c.

Huron Imp. 6 inches. Very large flowers; dark blue; almost black. Very floriferous. \$1.00.

Josephine. White. 50c.

Judy. 9 inches. A dark ruby red self, very fine. 75c.

Le Lido. 8 inches. Lilac self. 35c.

Lurida. 9 inches. Dark rich mahogany red. One of the finest. 75c.

Lutea. 6 inches. Yellow self. 25c.

Maia. 8 inches. S., bluish violet; F., violet cardinal with darker veins. Sweet scented. 50c.

Macrocarpa. 5 inches. A true pumila of rich violet tone. The very earliest to bloom. 35c.

Max. 6 inches. S., golden yellow; F., darker. A very fine iris. \$1.50.

Mirelle. 8 inches. A beautiful plum colored self with an orange beard. 75c.

Mistral. 8 inches. S., violet purple; F., reddish purple. 35c.

Mongol. Light yellow self. 50c.

Mons. Steichen. 10 inches. S., bluish white; F., yellow veined maroon, with a large purple signal patch. 75c.

Negus. 5 inches. Dark purple self. 35c.

Niobe. 5 inches. This is a real beauty, very dwarf; dark purple self, blue beard. One of the best blue blacks. 35c.

Nuducaulis. 8 inches. A splendid wine colored self. 35c.

Orange Queen. 8 inches. Deep yellow self. One of the fine dark yellows. 35c.

Oriental. 8 inches. S., ruby red; F., garnet. 75c.

Petite Aimee. 8 inches. Greenish white and cream. 35c.

Petite Daniel. 8 inches. Clear blue self. 35c.

Reflection. 6 inches. Medium blue, S., edged with yellow; F., same shot with purple brown. 50c.

Reichenbachi. 6 inches. Yellow self. 35c.

Reichenbachi. Orange. 6 inches. Deeper yellow than the above. 35c.

Royal Purple. 6 inches. A very dark purple self. 35c.

Sfax. A pink and yellow bicolor. \$1.00.

Siam. Light blue and yellow bicolor. 50c.

Silver Elf. 10 inches. S., pure white; F., gray delicately lined light blue. \$1.00.

Snow Cap. 10 inches. White self. 35c.

Socrates. 8 inches. Claret red self. A very fine dwarf. 50c.

Sonny. 6 inches. A very fine deep yellow self. 75c.

Statellae. 10 inches. Refined and fragrant ivory white. 25c.

Syra. A dark red purple self. 50c.

Trautlieb. 12 inches. A very fine pink. 35c.

Villreal. 6 inches. Lilac mauve self. 35c.

Wigan. 8 inches. The general tone as viewed from a distance is brownish red. Very pretty. 50c.

Ylo. Yellow self. 75c.

Zobeida. 6 inches. S., smoky lavender; F., dark velvety lavender purple with a bloom on the petals. 35c.

Zullichau. 8 inches. A dark blue bicolor. 35c.

INTERMEDIATE BEARDED IRIS.

These iris are intermediate between the Dwarf and Tall Bearded Irises both in stature and in blooming season. They prolong the iris season and make it continuous. They are too large for the rock garden, but are very fine for planting in borders in front of the Tall Bearded varieties. They are extremely hardy and prodigious bloomers.

Albicans. A very fine white. Very early. Long blooming season. 25c.

Blue Boy. A very effective deep red purple with a purple beard. 25c.

Dorothea. Flat flower of pearl gray with lilac shadings, crinkled petals. Not unlike a double Japanese iris. Fine cut flower. Very fragrant. 25c.

Empress. A lovely light cream color. 25c.

Etta. A good yellow toned self. 25c.

Gerda. An attractive cream and yellow bicolor. 25c.

Helge. A fine light yellow self. 25c.

Ingeborg. Large pure white with a yellow throat. 25c.

Kochii. Darkest of all, buds almost black. Very rich. 25c.

Pearl Blue. A miniature Mother of Pearl. 25c.

Soledad. Amber yellow with a brilliant orange beard. Fragrant. 50c.

Tid-Bit. A somewhat later light blue. 25c.

Walhalla. A fine large flower with light blue standards and velvety purple falls. A prodigious bloomer and fine landscape variety. 25c.

Zwanenburg. S., cream colored flushed and blotched pale violet; F., velvety rich old gold splashed with soft maroon. Brilliant orange beard. Prodigious bloomer. 25c.

WILD TYPES OF TALL BEARDED IRIS.

For the benefit of collectors and those interested in iris species we list the following types of tall bearded irises. Descriptions may be found in the tall bearded section.

Albicans; Amas; Cengalti; Cypriana; Kochii; Mandraliscae; Mesopotamica; Nepalensis Pallida Dalmatica; Ricardi Fonce; Sivas; Trojana; Variegata; Violaacea Grandiflora.

TALL BEARDED IRIS.

Afterglow. Grayish lavender shading to yellow. 25c.

Ak-Sar-Ben. Fawn and velvety brown markings on a cream background. \$2.00.

Alcazar. A stately and fine iris. S., bronzy mauve; F., deep red purple. 25c.

Amas. A medium blue-toned bicolor. 25c.

Ambassadeur. S., bronzy violet; F., dark velvety maroon. Of wonderful substance. Late. 50c.

Amber. The finest pure deep yellow. A striking flower. \$4.00.

Anna Farr. One of the best plicatas. White feathered with blue. Large fluffy flowers. 50c.

Anne Leslie. A pink bicolor. S., white tinted rose; F., dahlia carmine. 50c.

Apricot. A soft apricot self. A charming flower of unusual color when fully open. 50c.

Argonaut. A clear light lavender blue. 50c.

Aphrodite. Unquestionably the best of the violet pink selfs. In a class by itself. Fine form and color. \$3.00.

Arnols. Clouded red-purple with yellow blending. The garden effect is brown. 25c.

Archevique. A rich velvety purple bicolor. 25c.

Arsace. A lovely tall flower, soft lilac. 25c.

Asia. Soft lavender with yellow undertone. \$1.50.

Athene. Tall white. 25c.

Aurea. Rich chrome yellow. 25c.

Autocrat. A fine clear blue, with darker veined falls. 25c.

Autumn King. A dependable fall blooming blue toned lavender. \$1.00.

Avalon. A perfect iris; pinkish lavender blossoms of great size and beautiful form. Fine substance. \$2.00.

Ballerine. A handsome big fluffy flower in pale lavender with a style all its own. \$1.00.

Baronet. Notable for its blue tone. Good height. 35c.

Barrelane. A large lavender violet flower of good habit. 50c.

Beau Ideal. A beautifully formed white ground plicata with petunia violet border. \$1.00.

Belladonna. A deep purplish blue bicolor. Early. 50c.

Benbow. A medium blue-toned self. \$1.00.

Bernard Galloway. A well formed lavender with a charm of its own. 75c.

Black Prince. S., lavender violet; F., very dark velvety violet. Unexcelled for richness of color. Late. \$1.00.

Blue Lagoon. Large flowered rich velvety deep blue. 50c.

Bluet. A useful free-flowering blue toned iris which should be much more widely planted. 50c.

Bronze Lady. An interesting bronzy bicolor. 50c.

Bruno. The falls are deep rich velvety red purple of exceptional size and great substance, the standards are bronze tinted lavender. One of the finest of the Dominion race. Sweet scented. \$7.50.

B. Y. Morrison. Deep purple falls with lavender edging matching the standards. 50c.

Camelot. A wonderfully dainty tall plicata white feathered pale violet. 25c.

Candicans. A light blue self. 25c.

Candelabre. A striking flower in dark blue purple and white. 25c.

Canopus. A Dominion seedling which is an improved Alcazar with a very large flower. \$1.50.

Caprice. A medium red-toned self. A brilliant garden variety. 25c.

Captain Coffin. One of the bluest lavenders. Good size and pallida foliage. \$1.00.

Cardinal. One of the richest of the Dominion race. S., lavender shot with rose; F., dark red purple of wonderful velvety texture. The supply of this iris is not equal to the demand. \$10.00.

Caroline E. Stringer. A delicately tinted rose-flushed flower. Lighter than Dream. \$2.00.

Catalosa. A good violet bicolor. 25c.

- Caterina.** Large flowers of clear lavender blue. 25c.
Cavalier. A deep blue bicolor. 25c.
Celeste. A sweet scented light blue self. Lovely for massing. 25c.
Cengialti. A medium blue self. 25c.
Chalice. A bright uniform yellow self. \$1.00.
Chasseur. An outstanding light yellow self. \$2.00.
Clematis. A medium blue bicolor which opens out like a clematis blossom. 25c.
Cluny. A soft lilac blue. 25c. Sweet scented.
Col. Candelot. Flowers coppery red. 35c.
Conquistador. A tall vigorous plant with fine foliage and deep mauve to light violet flowers. Size and height are outstanding. \$1.00.
Crimson King. Large claret purple flowers. Early. 25c.
Crusader. One of the clearest of the dark lavender blue bicolors. 50c.
Cypriana. A tall lavender violet bicolor. Sweet scented. 25c.
Dalila. S., pale lavender; F., dark red with white throat, flushed canary yellow. 25c.
Damozel. A most lovely ruffled plicata. 50c.
Dawn. A soft light yellow toned self. 50c.
Delicatissima. A pinkish self color. 50c.
Demi Deul. A dark reddish purple on a paler ground. 35c.
Dejah. A very tall hybrid pallida. \$1.00.
Dianto. A pink to red-toned self. Very floriferous. 25c.
Dimity. A sweet scented white with blue penciling. 25c.
Dominion. The most famous iris in the world. The parent of the great Dominion race of irises. The standards are light bluish violet, the fall deep rich indigo purple velvet with a brilliant orange beard. A flower of unusual substance. Fragrant. \$5.00.
Dora Longdon. S., cream buff flushed pink at the center; F., magenta to rosy purple. 25c.
Dorman. A rich red purple. 25c.
Dr. Bernice. S., canary bronze; F., velvety crimson. Old but good. 25c.
Dream. A typical pink pallida with an orange beard. Very popular. 35c.
Duke of Bedford. Fine large iris of Dominion parentage. Rugged, free flowering, of perfect form and fine rich coloring. S., deep reddish violet; F., rich velvety blackish purple. \$4.50.
Duke of York. A gigantic flower of an exquisite shade of soft mauve with a bold orange beard. \$1.00.
Dusky Maid. S., pale buff; F., deep mauve purple. 35c.
Duquesne. A very rich dark blue bicolor. Airy and distinct. \$1.00.
Eckesachs. S., lavender blue; F., purple violet. Good. 25c.
Eclaireur. The largest and tallest white bicolor. S., white suffused lilac; F., rosy violet. 50c.
Edith Cavell. The grandest of all whites, huge flowers with yellow throats. Of unusual finish and substance. \$1.00.
Edouard Michel. Wonderfully ruffled dark red-violet flower. Sweet scented. 50c.
E. H. Jenkins. A medium blue bicolor. Showy and attractive. Sweet scented. 25c.
E. L. Crandall. A heavily margined lavender and white plicata with prominent orange beard. 25c.
Elberon. A new shade in a deep red. 25c.

Eldorado. A striking yellow and heliotrope blend. 25c.

Emir. A fine blue bicolor of good height and form. 50c.

Erich. Pinkish lilac self. Good. 25c.

Fairy. Inexpensive, but lovely opal tinted white plicata. 25c.

Fedora. A fine variegata. S., old gold; F., reddish violet purple. 75c.

Flammenschwert. An improved Iris King. 50c.

Forsete. A dark lavender self. 75c.

Gaviota. A creamy white plicata edged with yellow. 50c.

Georgia. A medium shade of soft rose. 50c.

George J. Tribolet. A fine rich velvety purple with a coppery sheen. \$4.

Gertrude. A deep blue self. One of our heaviest bloomers. Fine for massing. 25c.

Germaine Perthuis. This is the most sweetly scented of any iris I know. Vigorous and free flowering. The standards a pleasing shade of violet lighted with a lighter tone, the falls rich deep velvety Bishop's violet. This is a prize winner. We strongly recommend it. \$7.00.

Glowing Embers. The violet flushed standards and dahlia purple falls enclose a glowing center of yellow netted hafts and golden beards. \$2.00.

Gold Crest. A bright violet blue with a prominent yellow beard. 25c.

Greater May Queen. An improved May Queen. 25c.

Grevin. A red-purple blend. 25c.

Halo. Large flowers of Lord of June type. Good substance. Light blue violet. 50c.

Harriet Presby. A fine tall light rosy violet. Very free flowering. \$1.

Her Majesty. A medium pinkish bicolor. 25c.

Hermione. Large flowered blue-purple bicolor. 75c.

Hermosa. A red-purple with yellow glow in the center. 35c.

Inca. S., saffron yellow; F., velvety dark plum edged gold. 25c.

Iris King. A variegata with buff standards and a wide border of ox-blood red on the falls. 25c.

Isolene. Large flowers, indescribably blended in pale bronze, pink lilac and mauve. Regal when sheltered from bright sun. Very popular. 25c.

Jacquesiana. A rich bronze and mahogany. 25c.

Japanesque. A blue bicolor with wide open flowers, similar to a Japanese iris. Much admired. 25c.

Jeanne D'Arc. An airy and free flowering plicata with lovely lavender penciling. 25c.

Jennett Dean. Large flowers of pale shimmering lavender. Exquisite when well grown. 60c.

J. J. Dean. Brilliant blue purple. Immense flowers. Very effective. 75c.

Jubilee. A yellow ground plicata. Wavy petals dotted and stippled with purple brown. \$2.50.

Juniata. A lovely sweet scented mauve self. 25c.

Junonia. A soft blue-purple bicolor. 50c.

King Karl. A flower of great substance. A plicata which is deeply frilled and heavily dotted with pink and brownish red. \$2.50.

Koya. A deep violet self, apt to bloom in the fall as well as spring. 35c.

Lady Byng. A clear pale lavender. A beautiful flower. \$1.00.

Lady Foster. A handsome, ruffled medium blue bicolor. One of the finest of the clear blue varieties. Sweet scented. 50c.

La Neige. A lovely late creamy white. Still far too rare. 50c.

Lent A. Williamson. Massive in stalk and flower, deep red violet, shaded with yellow. One of the finest American originations. 35c.

Leonato. Somewhat similar to Lady Foster, but larger and of a paler shade. Flowers exceedingly large and fragrant. \$1.50.

Lewis Trowbridge. A pale blue self. 25c.

Lohengrin. A ruffled pinkish mauve self. One of the most satisfactory garden irises. 25c.

Lona. Similar to King Karl, but having more lavender in the coloring. A very lovely ruffled, sweet scented iris. \$3.00.

Lord of June. Massive flower; S., pale blue; F., violet. Probably one of the handsomest and most popular varieties. 50c.

Loreley. Light yellow and purple. Floriferous and gay. 25c.

Mady Carriere. A blue-toned Aterglow. A delightful blend. 35c.

Magnifica. Like Alcazar, but still larger, also lighter and pinker. 50c.

Majestic. One of the best Dominion seedlings. Enormous flowers of finest form. S., light lavender to mauve stained bronze at the base; F., rich velvety raisin purple. An exceedingly good grower. Very free flowering. \$3.00.

Ma Mie. Clear white, frilled violet blue. A better form than Mme. Chereau. 25c.

Mandalisca. A medium blue self. A native of Sicily. 25c.

Mareschal. A light blue bicolor, shot with brown. 25c.

Marian Mohr. A pale glistening lavender. 50c.

Marsh Marigold. Pale golden yellow with deep purple brown falls. 50c.

Mary Garden. A yellowish plicata of considerable charm. 25c.

Mary Gray. A sweet scented soft blue self. 25c.

Mary Orth. A medium blue-violet with darker falls. 35c.

Mary Williamson. Purple with white bordered falls. Distinct and interesting. 75c.

Mauvette. A light lavender-blue self. 50c.

Mauvine. A very tall, deep lavender mauve. 25c.

May Rose. Soft bright rose pink. 25c.

Medrano. General effect a dark, smoky claret. Rich and distinct. 50c.

Merlin. A lovely dark blue bicolor. 50c.

Mesopotamica. An immense flower of lavender violet, of crinkled texture and sweet fragrance. Early. 75c.

Midgard. An exquisite bright rose and yellow blend; a tint of ashes of roses overlays the bright color. Large flowers. \$7.50.

Midwest. A dainty reddish plicata, delightfully frilled. 35c.

Minnehaha. Pale yellow with maroon reticulation. Very distinct. 25c.

Miss Wilmott. White, slightly tinted lavender. Petals of stout leathery texture. 50c.

Mistress Ford. A fine red purple bicolor. 50c.

Mlle. Schwartz. Large palest mauve self. 50c.

Mme. Blanche Pion. A yellow and pinkish red bicolor. 25c.

Mme. Boulet. A yellow plicata similar to Mme. Chobaut, but darker. 25c.

Mme. Chereau. White, heavily buttonholed lavender. 25c.

Mme. Cheri. Warm blended tones with more yellow and less pink than Nancy Orne. One of the best of the lighter blends. 50c.

Mme. Chobaut. Flowers of pale yellow shaded and veined with cinnamon brown. Unusual coloring. Good. 35c.

Mme. De Sevigne. A fine large plicata with violet purple markings. 25c.

Mme. Durrand. An indescribable tan and mauve blend, coppery toned flower of great beauty, especially in sunlight. Very tall and large. \$2.50.

Mme. Henri Cayeux. A handsome variety of the Ambassadeur type. A deep reddish purple bicolor. The falls are nearly black and very velvety. Sweet scented. \$3.50.

Moliere. A deep violet self with very large flowers. 50c.

Monsignor. S., violet; F., heavily veined a deeper purple. 25c.

Montezuma. S., deep yellow dotted brown; F., yellow and white, veined purple and dotted brown. 25c.

Mons. Hubert. A violet and blue blend. 75c.

Moonstone. Pale, soft luminous blue. 25c.

Morning Splendor. One of the most outstanding of American introductions. S., petunia violet; F., raisin purple. Very large flowers; producing a striking deep red in sunlight. \$1.75.

Mother of Pearl. A large flowered pale lavender iris of remarkably pearly tone. Free flowering and vigorous. 35c.

Mrs. Alan Gray. A delightful pinkish lavender, often blooms in the fall. 25c.

Mrs. Chas. Pearson. A fine light mauve lavender. 75c.

Mrs. Cowley. A good brown and yellow combination. 25c.

Mrs. Fryer. S., pale lavender; F., red purple. 25c.

Mrs. H. F. Bowles. Very distinctive and unique. S., a most novel and delightful shade of soft brown overlaid old gold; F., a glorious shade of brick red. \$1.25.

Mrs. Tinley. Large violet blue self. 25c.

Mrs. Walter Brewster. S., lavender blue; F., aniline blue. 35c.

Myth. Big ruffled, light lavender flowers. 50c.

Nancy Orne. A tall raspberry lilac toned iris. Lovely in the garden. 35c.

Nepalensis. A fine blue species. Similar to Kochii.

Neptune. One of the big purple bicolors. 35c.

Nimbus. A dark violet bicolor of outstanding quality. A beautiful steel gray flower. 75c.

Nibelungen. Olive buff and violet. 25c.

Nine Wells. Extremely striking rich purple flower of fine height and habit. 25c.

Nothung. A combination of sulphur yellow and palest blue. 25c.

Nubian. S., mauve; F., raisin purple. 50c.

Nue D'Orage. A ruffled smoky lavender with an illuminated center. 25c.

Oliver Perthus. A rich purple resembling Mme. Gaudichau, but later. 50c.

Opera. A rich reddish bicolor. 50c.

Ophelia. S., golden copper shaded mauve; F., sulphur yellow shaded light mauve with a margin of golden copper. A charming medley of warm orange, cream mauve and bronze tints lighted with a deep orange beard. Perfectly exquisite. \$6.00.

Oriflamme. An early bloomer and great favorite, huge blue purple flower in the utmost profusion. 35c.

Parc De Neuilly. Rich violet purple. Splendid garden effect. 25c.

Parisiana. A heavily stippled purple and white plicata. 25c.

Pauline. Pleasing lilac pink shade. Fine garden effect. 25c.

Peau Rouge. Unquestionably the reddest toned iris ever introduced. \$1.50.

Perfection. Rich light lavender to dark madder violet. One of the best bicolor iris. 25c.

Phyllis Bliss. Pale rosy lavender self. 35c.

Plumed Knight. Fine veining and powdering of pinkish lilac on white standards and falls. \$1.50.

Pocahontas. White widely bordered lavender violet. One of the best frilled varieties. 25c.

Powhatan. A good red purple self. 25c.

Prairie Gold. Intensely brilliant yellow; sturdy growing and fine. A new Sass introduction. \$5.00.

Princess Beatrice. The finest form of *Pallida Dalmatica*; silvery lavender flowers of greatest substance. Floriferous and lovely. 25c.

Princess Victoria Louise. An early blooming yellow and plum combination. 25c.

Priscilla. S., violet; F., blackish purple. 35c.

Prof. Seeliger. A deep wine purple; an attractive iris. 25c.

Prosper Laugier. Flowers of strongly bronzed crimson purple. 25c.

Prospero. Strikingly handsome purple violet bicolor, an exceptional iris. 35c.

Purple Lace. Deep blue purple except for the white ground beneath the lacing of the haft. 50c.

Quaker Lady. S., smoky lavender; F., blue and old gold, center of flower and beard yellow. Of fine form and finish. 25c.

Queen Caterina. A large pale lavender violet self. 25c.

Queen of May. A good shade of lilac pink. 25c.

Rachel Fox. Small but charming blend of old gold flushed with soft blue. 25c.

Ramona. A new blend of colors. Petunia violet flushed cinnamon brown, lighted with a golden beard. A beautiful flower. 50c.

Red Cross. S., pinkish lavender; F., red. 25c.

Red Riding Hood. Unusual reddish tone. 25c.

Regan. A large handsome dark purple. 50c.

Rhein Nixie. White standards with pansy violet falls. This fine variety should have a place in every garden. 25c.

Rhein Traube. S., lavender blue; F., purple violet. 35c.

Ricardi Fonce. Large flowers of light and dark violet on well branched stems. 75c.

Ring Dove. Large flowers of pale lavender violet on tall stems. 25c.

Rodney. A medium blue self. 25c.

Romany. S., pale dusky yellow; F., bright red. 25c.

Romeo. A striking little yellow, violet and lilac tricolor. 25c.

Rosalba. As near red as any. 50c.

Rosado. A most beautiful soft clear pink of unusual size and height. \$3.00.

Rosedale. An excellent clear lavender overlaid with lobelia blue. 50c.

Roseway. Deep reddish pink, an effective garden iris. 35c.

Rubyd. A deep red purple self. 75c.

Ruby Perry. A beautiful dark rose pallida on stems nearly four feet. \$1.

Ruby Queen. A distinct ruby iris. 35c.

Rugajo. Wine red in tone. Valuable for garden effects. 25c.

Ruth Pfeiffer. A light lavender and white bicolor. Delicate and lovely. 50c.

Salonique. Cream and plum purple. 35c.

San Gabriel. Enormous lavender mauve flowers on 4-5-foot stems. Early and long flowering. A wonderful iris. \$1.00.

Santa Barbara. The finest pure lavender blue that has yet been introduced. Its color and size make it an outstanding flower. \$2.50.

Sarpedon. A medium blue bicolor. 25c.

Seminole. Rich red purple with velvety falls. Very telling in the garden. 35c.

Shalimar. A fine blue bicolor. Remarkable for its numerous flowers. 25c.

Shelford Chieftain. A lovely tall blue. Fine garden effect. 25c.

Shekinah. One of the finest yellows. Soft and clear. 35c.

Sherwin Wright. A small but good bright yellow. 25c.

Silverado. Lavender and dull blue. Very fine. 75c.

Sivas. Violet blue with darker falls. Asia Minor native. 25c.

Sindjkha. Subdued tones, but of magnificent habit and growth. 25c.

Solana. The standards clear yellow; falls deep red. 25c.

Souv. De Loetitia Michaud. Standards and falls light lobelia blue. Vigorous and well branched. One of the finest and most beautiful of all irises. \$3.00.

Souv. De Mme. Gaudichau. Rich deep violet, magnificent both as specimen and clump. No iris lover should be without it. 50c.

Splendour. A reddish bicolor shot with brown. 35c.

Steepway. A smooth blend of satiny texture. S., reddish fawn; F., mauve shaded with blue and brown. 50c.

Sunset. A free flowering variety with blooms of unusual coloring. S., olive gold; F., flushed mauve at center. Late. 50c.

Suzanne Autissier. S., aniline blue; F., velvety purplish violet. Strong and fine. 50c.

Sweet Lavender. S., French gray lavender; F., rosy lavender; distinct from all other lavender iris. 50c.

Tamerlan. Large violet purple flowers. 25c.

Tenebrae. A fine Dominion seedling of rich violet and maroon purple. Very velvety and of fine substance. \$2.00.

Thelma Perry. Pale lilac pink. F., slightly deeper than S. Reticulated deep bronze at the base. 50c.

Theseus. Creamy white with yellow throat. Fine form and splendid substance. \$1.50.

Titan. Enormous flowers on tall stems. S., light violet blue; F., violet purple. A most striking iris. \$1.50.

Tom Tit. A small dark violet iris. Very cheery for massing. 50c.

Toreador. S., brilliant orange shot with bronze; F., rich glowing red. 25c.

Trojana. A good early blue species from Asia Minor. 25c.

Troost. S., deep rosy purple; F., paler veined violet, changing to brown at the top. 25c.

Tristram. White with deep purple falls. 25c.

True Charm. White margins etched with blue lavender. Very lovely and frilled. 50c.

True Delight. A pink plicata. Standards and falls pure white edged with a lovely deep rose. A flower of great refinement. \$2.50.

Variegata. Yellow and green variegated foliage. Blue flowers. 50c.

Violacea Grandiflora. S., rich blue; F., violet blue. 25c.

Virginia Moore. Very good late lemon yellow. 35c.

Wedgwood. A lovely iris of a bright clear blue. Very floriferous and much admired. \$2.75.

Western Dream. A light violet self of great beauty. 25c.

White Knight. Pure snow white. 25c.

White Queen. A pure white, somewhat earlier than White Knight. Very prolific. 50c.

Yvonne Pelletier. One of the finest of the pale blues. Late. 35c.

Zouave. A dainty lilac plicata. 25c.

Zua. White with a lavender tint. Flowers heavily crimped, creped and frosted. Early. Entirely distinct from all other irises. 50c.

IRIS COLLECTIONS

I have listed below a number of iris collections of various sorts, but I would be very pleased to make up a collection of iris roots for a dollar or three dollars or five dollars, for anyone who would care to have me do so, and would send me their preferences as to colors. I am quite sure you will be entirely satisfied with the collections I will send you, but if you are not, I will take them back without any complaint.

COLLECTION (A).

On each of thirty 25c varieties separately labeled. Valued at \$7.50. Collection price, \$5.00, delivered.

Veronica Repens—25c.

This selection, value \$1.60, Special price \$1.00.

COLLECTION OF CAMPANULAS.

Collection of six named varieties of rock garden campanulas, correctly labeled, of our choosing. Value at least \$1.50, for \$1.00.

ALPINE PLANTS FOR THE BEGINNER.

This list includes alpine plants of the very easiest culture, such as will be suitable for a person with no previous experience in rock gardening. There are many more varieties of the easiest culture in the general list but this list will provide a nucleus from which to build a rock garden. Full descriptions of the plants will be found in the general list.

Alyssum Saxatile or *A. Argentium*.

Aquilegia Flabellata Nana.

Arabis Alpina or *A. Variegata*.

Arenaria Montana, *Armeria Maritima*. (See Thrift.)

Aster Alpinus.

Aubretias. (In variety.)

Campanula Carpatica, *Pucilla*.

Delphinium Chinensis.

Dianthus Deltoides.
Gypsophylla Repens.
Helianthemums. (Rock rose.)
Iris Pumila. (Dwarf Bearded.)
Nepeta Mussini.
Phlox Sublata or *P. Amoena.*
Primula Veris.
Saponaria Ocymoeides.
Saxafraga Aeizoon, Pyramidalis.
Sedum Sexangulare.
Sempervivum Montanum.
Veronica Prostrata, Repens.
Viola Jersey Gem.
Zauschneria Californica.

CHOICE ALPINES FOR THE ADVANCED ROCK GARDENER.

Anemone Patens, Pulsatilla.
Campanula Fragilis, Laurii, Pyraversi.
Crocus Sieberii, Susianus Versicolor and other
species.
Dianthus Arvenensis, Lacinatus, Speciosus.
Gentiana in variety.
Geum Borisii, Heldrechii.
Helleborus Niger. (Christmas Rose.)
Iris. (Dwarf Bearded in variety.)
Iris Cristata, Gracilipes, Reticulata, Verna.
Leontopodium Alpinum.
Sedum Kamtchaticum.
Sedum Middendorffianum.
Soldanella Alpina.
Tulip Species.
Veronica Gentianoides.
